The Crane Opera Ensemble
The award-winning Crane Opera Ensemble is a significant source for opera and music theatre in the North Country region of New York State. The ensemble is unique as it integrates the College mission of teaching, scholarship and public service, into its performances each year. Participation is through a competitive audition open to any major. One fully staged production is presented each semester in the Sara M. Snell Music Theatre. A variety of styles are presented in rotation to offer students the most diverse experiences. Operas are sung in the original language when appropriate, and our new supertitle system allows audiences to more fully enjoy the performances.

Opera Scenes Workshop
In addition to the main stage production, additional scenes are selected for study and performed informally at the end of the semester. This provides opportunities for students to gain experience that might lead to future main stage performance opportunities or to explore repertoire that would not be typically produced in a main stage production.

Education Outreach
The Crane Opera Ensemble is proud of its opera education outreach program which brings North Country school children to campus to experience opera performances and post-performance activities. Cast members, music business interns and students in the Teaching Opera to Children class create study guides and engage school children in activities that will help enrich their operatic experience. In turn, Crane students receive valuable experiences beyond the stage and production venues. To date, over 4,000 children have had the opportunity to experience opera, most for the first time.

Musical Theatre Collaborations
The Crane Opera Ensemble regularly collaborates in a variety of ways with the SUNY Potsdam Department of Theatre & Dance. A musical is produced jointly between the departments every three years and has included such productions as On the Town, Cabaret, Working, and Ragtime. Crane students are encouraged to participate in theatre and dance offerings each semester that include acting, directing, modern dance, ballet, production techniques, costume design and construction, 10-minute play festival, student choreographer’s concert and main stage plays.
