The State University of New York at Potsdam is one of America’s first fifty colleges with one of the best liberal arts foundations as well as high-impact learning opportunities and quality programs that prepare you for an increasingly complex world and global marketplace.

At SUNY Potsdam, you will work with fellow students, faculty, and staff to create a unique learning experience. You will study both the essential elements of a broad education and have the opportunity to dig deep into your major discipline through transformational learning environments. While here, you will also develop a strong sense of what it means to work hard, have fun, and explore exciting possibilities for your life. Our faculty and professional staff will introduce you to new ideas, new technologies, and new ways of approaching problems. You will cultivate lifelong learning skills that will translate directly into a successful career: critical thinking, writing, speaking, the scientific method, and the application of technology. All of these essential ingredients are important tools that will allow you to keep pace competitively throughout your lifetime. More importantly, at SUNY Potsdam you will have the chance to explore collaborative and interdisciplinary study in many of our programs.

The College encourages participation in intramural athletics and recreational activities; cultivation of leadership skills in student government, community service projects and academic honor societies in order to gain a competitive edge in the future job market through special programs like international study, service learning, honors, or internships. What is important is that you will have the chance to integrate what you learn in the classroom with how you approach the world and how you develop personally.
